Employability Skills/Life Skills/Sport/Hair/IT**

All courses will include English | Maths | Employability and Life Skills

Goldwyn College has quickly responded to the high level of young people requiring **specialist supported training** in Ashford and its surrounding area by developing a provision that **meets the needs of young people with an EHCP**. The college continues to provide opportunities for young people who may not be able to cope in a mainstream college, to continue their education and training **within an environment where they feel safe and their learning needs are recognised and fully supported** giving every young person the chances they need to continue to achieve their future aspirations and goals and to get them ready for work.

Small class sizes: Unlike larger colleges where you could regularly find yourself in classrooms and workshops in groups of 25-35 students, at Goldwyn College you'll rarely be in a class of more than 10-12 students.

Provide more structure and support: Because Goldwyn College is small we are able to provide a safe and inclusive teaching and learning environment that also includes small group 1-1 support for students with learning difficulties, disabilities or any other additional learning needs.

Specialist staff: Goldwyn College has teaching and support staff with a wide range of experience and specialism in working with young people. All our staff have appropriate SEN qualifications and a programme of Continuous Professional Development is in place for teaching and support staff.

Tailor made timetables to suit your needs: Goldwyn College are able to adjust your timetable to suit you. We want your experience here to be GREAT.

Educational Career Plans: Goldwyn College will help you plan for your future; supported internships, apprenticeships and even a career.

Learn new skills – gain experience and obtain qualifications to help you succeed in the future.

Vocational courses - help students develop the knowledge and skills in preparation for future employment, apprenticeships or to go on to further education.

Provide **learning opportunities** to inspire and engage and to help all students succeed and achieve their full potential.

Whether your ambition is to secure paid employment, gain work experience training as an apprentice, work towards going to University, or to set up your own business venture, Goldwyn College can **help point you in the right direction**.

At Goldwyn College you will be given the **support and advice from experienced tutors** throughout your training course.

Our **high specification workshops** will allow you to benefit from the very latest technology and equipment.

We understand that choosing the right course can be difficult so we can **help you make your choice**.

We look forward to welcoming you to our friendly and inclusive learning community, helping you to reach your full potential along with celebrating your achievements.
